LETTER OF SUPPORT ON BEHALF OF ADDIS ABABA UNIVERSITY

MILLENNIUM FELLOWS

To whom it may concern

Dear Sir/Madam,

I am Sam Vaghar, the Executive Director and Co-founder of the Millennium Campus Network (MCN), United States Boston. Millennium Campus Network (MCN), Inc., is a global student network advancing the United Nations Sustainable Development Goals. MCN programs convene, challenge, and celebrate student leadership for social impact. Our network has worked directly with over 9,000 young leaders from 300 universities and supports hundreds of projects every year. Young leaders lead these projects through our Millennium Fellowship program delivered in partnership with the United Nations Academic Impact. This year we are supporting 4,000+ Millennium Fellows across 290+ campuses in 47 countries.

I am reaching out to you at the request of Fanuel Welehariat. This student is piloting a bold and innovative project: Smart Farming for Food. This project idea is unique, with achievable objectives, measurable goals and a solid team to help in implementation.

This is as a humble recommendation for the above named students as they try to connect with potential partners and explore synergies and possible paths to collaboration. Please confer with them directly if this is of interest. In case of any questions, please feel free to reach their Program Coordinator Christine Meggan Nyakwaka, cnyakwaka@mcnpartners.org

With thanks for your consideration,

Sam Vaghar
Executive Director, MCN
Advisor to the Executive Director, UN Women
Harvard Kennedy School '21 / Gleitsman Fellow
